

To Martine, Staff and the DSAM Association

I just can't thank you enough for being so instrumental in Jamila's life. I have to admit that I really admire the young mothers who have children with Down Syndrome and are participating with DSAM. It took me over 20 years to get Jamila involved with her peers. I know it's hard to believe but I was rather shy and overprotective when it came to talking to other people about Jamila when she was younger. She turned 40 years old last September and has been nothing but absolute JOY to me and her family and friends. She truly loves being a part of DSAM and looks forward to volunteering in any way she can. The DSAM is a true gift to Jamila, her family, and others.

We can't thank you enough!
